“Written by the foremost accredited London newspaper journalist in the Middle East during the Great War, William Massey covered the war in the Middle East as it was fought against the Ottoman Turkish Empire, its German ally and the tribes of the region who supported them. He was aware of the hardships suffered by the British and Colonial troops serving in the difficult climate and later became a champion of those who fought there. He writes of the complete conflict from the battles in the western desert with the Senussi to Aleppo and beyond to the borders of Turkey.”-Print Edition

This narrative of the work accomplished for civilisation by General Allenby's Army is carried only as far as the occupation of Jericho. The capture of that ancient town, with the possession of a line of rugged hills a dozen miles north of Jerusalem, secured the Holy City from any Turkish attempt to retake it. The book, in fact, tells the story of the twenty-third fall of Jerusalem, one of the most beneficent happenings of all wars, and marking an epoch in the wonderful history of the Holy Place which will rank second only to that era which saw the birth of Christianity. All that occurred in the fighting on the Gaza-Beersheba line was part and parcel of the taking of Jerusalem, the freeing of which from four centuries of Turkish domination was the object of the first part of the campaign. The Holy City was the goal sought by every officer and man in the Army; and though from the moment that goal had been attained all energies were concentrated upon driving the Turk out of the war, there was not a member of the Force, from the highest on the Staff to the humblest private in the ranks, who did not feel that Jerusalem was the greatest prize of the campaign.

In a second volume I shall tell of that tremendous feat of arms which overwhelmed the Turkish Armies, drove them through 400 miles of country in six weeks, and gave cavalry an opportunity of proving that, despite all the arts and devices of modern warfare, with fighters and observers in the air and an entirely new mechanism of war, they continued as indispensable a part of an army as when the legions of old took the field. This is too long a story to be told in this volume, though the details of that magnificent triumph are so firmly impressed on the mind that one is loath to leave the narration of them to a future date. For the moment Jerusalem must be sufficient, and if in the telling of the British work up to that point I can succeed in giving an idea of the immense value of General Allenby's Army to the Empire, of the soldier's courage and fortitude, of his indomitable will and self-sacrifice and patriotism, it will indeed prove the most grateful task I have ever set myself.
