The Economic Competitiveness of Renewable Energy: Pathways to 100% Global Coverage Winfried Hoffmann

The world is at the crossroads of either quickly changing the energy picture towards implementing efficient renewable energy sources or postponing this process by another generation. Based on the author's more than 30 years industrial experience, this book gives a set of assumptions by extrapolating known technology developments and shows that 100% coverage by renewable technology of the global energy needs is much more probable than previously argued.
