The purpose of this book is to concentrate on two important areas of jazz drumming: Reading and Interpretation. The book suggests ideas for fill-ins and related techniques, but is mainly made up of reading examples, such as a drummer would encounter on a job with a band or combo where reading is required.

This material is designed for improvisation and for the development of the following objectives:

- \* To play steady time.
- \* To play relaxed at all tempos.
- \* To play with a swinging concept ("feel").
- \* To play with good taste when improvising.
- \* To play and develop greater independence and coordination.
- \* To develop the art of reading syncopated patterns, thus supplementing snare drum foundation books.
