Die Casting Metallurgy: Butterworths Monographs in Materials

Alan Kaye, Arthur Street

Die Casting Metallurgy: Butterworths Monographs in Materials Alan Kaye, Arthur Street

Die Casting Metallurgy focuses on developments in the metallurgy of die casting. Ore distribution, smelting methods, and energy requirements for the major non-ferrous metals that are die cast are considered.

This text has 29 chapters; the first of which provides an overview of early developments in die casting. After explaining how metals and alloys are die cast, the book turns to the production of aluminum and its alloys, aluminum alloy die castings, and melting equipment for aluminum alloys. The chapters that follow explore the metallurgy of zinc and magnesium alloys; brass and ferrous die casting; automatic metal transfer systems; metal melting treatments; and the metallurgy of die casting machines. Developments in lubrication, die casting, and finishing processes are also considered. This book also describes pressure die casting dies, thermal fatigue of die casting dies, heat treatment of die steels, and surface treatment of steels. Some comparative alloy specifications are summarized and an attempt is made to correlate units of hardness, strength, and other properties.

This book will be of interest to materials scientists and industrial materials engineers.

From reader reviews:

John Sledge:

Have you spare time for a day? What do you do when you have more or little spare time? Sure, you can choose the suitable activity for spend your time. Any person spent their very own spare time to take a move, shopping, or went to often the Mall. How about open or read a book eligible Die Casting Metallurgy: Butterworths Monographs in Materials? Maybe it is being best activity for you. You understand beside you can spend your time with the favorite's book, you can cleverer than before. Do you agree with the opinion or you have different opinion?

Alex Miller:

Now a day those who Living in the era exactly where everything reachable by connect to the internet and the resources inside can be true or not involve people to be aware of each info they get. How individuals to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Studying a book can help people out of this uncertainty Information particularly this Die Casting Metallurgy: Butterworths Monographs in Materials book as this book offers you rich info and knowledge. Of course the knowledge in this book hundred per cent guarantees there is no doubt in it as you know.

Eric Saunders:

The book untitled Die Casting Metallurgy: Butterworths Monographs in Materials contain a lot of information on this. The writer explains her idea with easy approach. The language is very clear to see all the people, so do not worry, you can easy to read the idea. The book was compiled by famous author. The author will take you in the new era of literary works. You can read this book because you can please read on your smart phone, or model, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official web-site along with order it. Have a nice go through.

Lynn Gallagher:

Within this era which is the greater man or woman or who has ability in doing something more are more important than other. Do you want to become one of it? It is just simple way to have that. What you should do is just spending your time not much but quite enough to enjoy a look at some books. One of many books in the top checklist in your reading list is usually Die Casting Metallurgy: Butterworths Monographs in Materials. This book and that is qualified as The Hungry Slopes can get you closer in growing to be precious person. By looking upward and review this book you can get many advantages.
