iSpine: Evidence-Based Interventional Spine Care

iSpine: Evidence-Based Interventional Spine Care

iSpine is unique in its presentation of interventional spine, employing a disease-based or specific structure injury model. Expert clinicians take you through the full gamut of painful spine conditions, detailing historical features, clinical presentation, diagnostic testing, imaging studies, and the latest treatment interventions. Spine biomechanics and ergonomic principles are also covered to promote strategies for reducing spine strain and minimizing the risk of recurrent injury.

Containing hundreds of fluoroscopic images and other illustrations, *iSpine* provides a practical, procedural approach to the diagnosis and treatment of painful spine disorders. The contributing national and international authors are drawn from multiple specialties - including physiatry, anesthesiology, radiology, biomechanical engineering, physical therapy, orthopedics, neurosurgery, internal medicine, and rheumatology - reflecting the multidisciplinary nature of outcomes-oriented interventional spine care.

iSpine belongs on the shelf of any clinician practicing high-yield state-of-the-art interventional spine medicine, using the best available evidence to accurately diagnose, optimally treat, and minimize the healthcare costs associated with these disorders.

Features of *iSpine* Include:

- Technical instructions for performing procedures including hundreds of fluoroscopic images and other illustrations
- Chapters discuss innovative new technologies and spinal applications, such as intradiscal biologic agents for degenerative lumbar discs and augmentation of pelvic insufficiency fractures
- Critical analysis of the literature on interventional spine care
- Chapters written by internationally recognized experts

From reader reviews:

Sherry Spears:

What do you concentrate on book? It is just for students as they are still students or that for all people in the world, what best subject for that? Merely you can be answered for that issue above. Every person has distinct personality and hobby per other. Don't to be pressured someone or something that they don't wish do that. You must know how great and important the book iSpine: Evidence-Based Interventional Spine Care. All type of book are you able to see on many sources. You can look for the internet sources or other social media.

Patricia Watts:

Playing with family in the park, coming to see the water world or hanging out with good friends is thing that usually you will have done when you have spare time, and then why you don't try matter that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love iSpine: Evidence-Based Interventional Spine Care, you could enjoy both. It is fine combination right, you still need to miss it? What kind of hangout type is it? Oh occur its mind hangout men. What? Still don't obtain it, oh come on its identified as reading friends.

Charles Kinsella:

This iSpine: Evidence-Based Interventional Spine Care is brand-new way for you who has fascination to look for some information because it relief your hunger associated with. Getting deeper you onto it getting knowledge more you know or perhaps you who still having bit of digest in reading this iSpine: Evidence-Based Interventional Spine Care can be the light food for yourself because the information inside this specific book is easy to get by simply anyone. These books develop itself in the form that is reachable by anyone, yep I mean in the e-book form. People who think that in publication form make them feel tired even dizzy this publication is the answer. So you cannot find any in reading a publication especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss the idea! Just read this e-book type for your better life and also knowledge.

Meredith Butler:

As a college student exactly feel bored in order to reading. If their teacher questioned them to go to the library or to make summary for some guide, they are complained. Just minor students that has reading's spirit or real their hobby. They just do what the educator want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that studying is not important, boring along with can't see colorful images on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this iSpine: Evidence-Based Interventional Spine Care can make you really feel more interested to read.
