## **Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds (Math Recovery)** Robert J Wright, David Ellemor-Collins, Pamela D Tabor

Following the great success of the earlier books, this fourth book in the Mathematics Recovery series equips teachers with detailed pedagogical knowledge and resources for teaching number to 7 to 11-year olds.

Drawing on extensive programs of research, curriculum development, and teacher development, the book offers a coherent, up-to-date approach emphasising computational fluency and the progressive development of students' mathematical sophistication. The book is organized in key domains of number instruction, including structuring numbers 1 to 20, knowledge of number words and numerals, conceptual place value, mental computation, written computation methods, fractions, and early algebraic reasoning.

Features include:

" fine-grained progressions of instruction within each domain;

" detailed descriptions of students' strategies and difficulties;

" assessment tasks with notes on students' responses;

" classroom-ready instructional activities;

" an accompanying CD with extensive instructional resources.

This book is designed for classroom and intervention teachers, special education teachers and classroom assistants. The book is an invaluable resource for mathematics advisors and coaches, learning support staff, numeracy consultants, curriculum developers, teacher educators and researchers.

**From reader reviews:**

**Michael Riddle:**

Why don't make it to become your habit? Right now, try to ready your time to do the important action, like looking for your favorite guide and reading a guide. Beside you can solve your condition; you can add your knowledge by the book entitled Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds (Math Recovery). Try to face the book Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds (Math Recovery) as your close friend. It means that it can for being your friend when you really feel alone and beside that course make you smarter than previously. Yeah, it is very fortunated for you. The book makes you considerably more confidence because you can know every thing by the book. So , we need to make new experience and knowledge with this book.

**Ernest Pettaway:**

Nowadays reading books be than want or need but also work as a life style. This reading habit give you lot of advantages. The huge benefits you got of course the knowledge the particular information inside the book this improve your knowledge and information. The knowledge you get based on what kind of e-book you read, if you want have more knowledge just go with education and learning books but if you want feel happy read one with theme for entertaining such as comic or novel. The actual Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds (Math Recovery) is kind of reserve which is giving the reader unforeseen experience.

**Todd James:**

This Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds (Math Recovery) is brand-new way for you who has fascination to look for some information as it relief your hunger info. Getting deeper you onto it getting knowledge more you know or else you who still having small amount of digest in reading this Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds (Math Recovery) can be the light food for you because the information inside that book is easy to get through anyone. These books acquire itself in the form which is reachable by anyone, sure I mean in the e-book form. People who think that in e-book form make them feel sleepy even dizzy this e-book is the answer. So there isn't any in reading a book especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss it! Just read this e-book sort for your better life as well as knowledge.

**Hector Duggan:**

What is your hobby? Have you heard that question when you got scholars? We believe that that query was given by teacher for their students. Many kinds of hobby, Every individual has different hobby. And you know that little person just like reading or as reading become their hobby. You need to understand that

reading is very important along with book as to be the factor. Book is important thing to increase you knowledge, except your current teacher or lecturer. You get good news or update in relation to something by book. Many kinds of books that can you decide to try be your object. One of them is niagra Developing Number Knowledge: Assessment, Teaching and Intervention with 7-11 year olds (Math Recovery).
