This volume comprises studies written by prominent scholars working in the field of German Idealism. These scholars come from the English speaking philosophical world and Continental Europe. They treat major aspects of the place of religion in Idealism, Romanticism and other schools of thought and culture. They also discuss the tensions and relations between religion and philosophy in terms of the specific form they take in German Idealism, and in terms of the effect they still have on contemporary culture. The authors consider figures such as Kant, Fichte, Hegel, and Jacobi.

The book will prove very informative to researchers and teachers working in the fields of philosophy, philosophy of religion, and classical German philosophy.
