Rocks and Plants (God's Creation Series)

Michael Carroll, Caroline Carroll

Rocks and Plants (God's Creation Series) Michael Carroll, Caroline Carroll

" Let the water under the sky be gathered into one place. Let dry ground appear." And That's exactly what happened. God called the dry ground "land." -Genesis 1:9 (NIRV) In Rocks & Plants, kids explore the physical world, examing the often overlooked details of planet Earth, and leaning about some of the wonders that lie hidden just above and beneath its surface. Exploding volcanoes that birth small islands, plants that save lives, floods that carve out cliffs and caves, the recycling of our atmosphere-and much, much more-are investigated in kid-friendly language and concepts. Add drawings, photos, and fun facts, and young scientists see that the awesome power and splendor of God is echoed in Earth's fossils, stones, and mountains.
