Alternatives for Landmine Detection

J. R. Lockwood, Jacqueline A. MacDonald

Alternatives for Landmine Detection J. R. Lockwood, Jacqueline A. MacDonald

At the rate that government and nongovernmental organizations are clearing existing landmines, it will take 450-500 years to rid the world of them. Concerned about the slow pace of demining, the Office of Science and Technology asked RAND to assess potential innovative technologies being explored and to project what funding would be required to foster the development of the more promising ones. The authors of this report suggest that the federal government undertake a research and development effort to develop a multisensor mine detection system over the next five to eight years.
