Excited Delirium Syndrome: Cause of Death and Prevention

Vincent J.M. Di Maio

Excited Delirium Syndrome: Cause of Death and Prevention Vincent J.M. Di Maio

A suspect, prisoner, or psychiatric patient becomes violent. The officer or hospital staff struggle to control the person, sometimes with a choke hold or hog tying. Shortly afterward, the patient dies. This illustrates Excited Delirium Syndrome, a condition in which normal physiological changes produced by violent activity culminate in sudden cardiac death. Excited Delirium Syndrome: Cause of Death and Prevention discusses the effects of both legal medication and drugs of abuse on the cardiovascular system. The authors also discuss the effects of underlying disease and prevention of the syndrome, the role of the mental health professional, and the "high-risk" individual.
