Ideology in Turkish Cinema Mustafa Mencutekin

Mencutekin takes on the role of ideology in the history of Turkish cinema critically analyzing the values and ideas that have shaped the message and stories of Turkish movies. This study is based on the thesis that to truly explore the specific issues currently vexing Turkish cinema, one has to confront the aesthetic, technological, and ideological assumptions in the deeply nationalistic and secular approach to Turkish cinema and how they engage with the real social values of Turkish society. If one hopes to attain a cinema purified from all kinds of crisis, more democracy is required to create a cinema that is at peace with the past, present, and future of Turkish society.
