Knowing Nothing, Staying Stupid: Elements for a Psychoanalytic Epistemology Dany Nobus, Malcolm Quinn

Why is stupidity sublime?

What is the value of a 'dialectics of ignorance' for analysts and academics?

Knowing Nothing, Staying Stupid draws on recent research to provide a thorough and illuminating evaluation of the status of knowledge and truth in psychoanalysis. Adopting a Lacanian framework, Dany Nobus and Malcolm Quinn question the basic assumption that knowledge is universally good and describe how psychoanalysis is in a position to place forms of knowledge in a dialectical relationship with non-knowledge, blindness, ignorance and stupidity. The book draws out the implications of a psychoanalytic theory of knowledge for the practices of knowledge construction, acquisition and transmission across the humanities and social sciences.

The book is divided into two sections. The first section addresses the foundations of a psychoanalytic approach to knowledge as it emerges from clinical practice, whilst the second section considers the problems and issues of applied psychoanalysis, and the ambiguous position of the analyst in the public sphere. Subjects covered include:

The Logic of Psychoanalytic Discovery

Creative Knowledge Production and Institutionalised Doctrine

The Desire to Know versus the Fall of Knowledge

Epistemological Regression and the Problem of Applied Psychoanalysis

This provocative discussion of the dialectics of knowing and not knowing will be welcomed by practicing psychoanalysts and students of psychoanalytic studies, but also by everyone working in the fields of social science, philosophy and cultural studies.

This book that is qualified as The Hungry Slopes can get you closer in turning out to be precious person. By looking right up and review this e-book you can get many advantages.

Amy Zambrano:

As we know that book is significant thing to add our expertise for everything. By a book we can know everything we wish. A book is a group of written, printed, illustrated or perhaps blank sheet. Every year ended up being exactly added. This reserve Knowing Nothing, Staying Stupid: Elements for a Psychoanalytic Epistemology was filled in relation to science. Spend your spare time to add your knowledge about your technology competence. Some people has various feel when they reading any book. If you know how big benefit from a book, you can truly feel enjoy to read a publication. In the modern era like today, many ways to get book you wanted.

Ruth Paiz:

As a student exactly feel bored to be able to reading. If their teacher questioned them to go to the library or to make summary for some e-book, they are complained. Just minor students that has reading's spirit or real their passion. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that reading is not important, boring and also can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Knowing Nothing, Staying Stupid: Elements for a Psychoanalytic

Epistemology can make you truly feel more interested to read.
