"Prevention is Primary", written by associates of the nationally renowned Prevention Institute, is a theory-to-practice book for students, faculty practitioners, and community leaders who want to take a proactive stance against the most pressing health problems in the community including asthma, tobacco, violence, HIV, poor nutrition and physical inactivity, health disparities, and environmental injustice. The authors define the elements of comprehensive, quality prevention efforts from the necessary partnerships that need to be developed to the training, vision, and policies that go into successful efforts.
