Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials)

Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials)

Lasers have a wide and growing range of applications in medicine. Lasers for Medical Applications summarises the wealth of recent research on the principles, technologies and application of lasers in diagnostics, therapy and surgery.

Part one gives an overview of the use of lasers in medicine, key principles of lasers and radiation interactions with tissue. To understand the wide diversity and therefore the large possible choice of these devices for a specific diagnosis or treatment, the respective types of the laser (solid state, gas, dye, and semiconductor) are reviewed in part two. Part three describes diagnostic laser methods, for example optical coherence tomography, spectroscopy, optical biopsy, and time-resolved fluorescence polarization spectroscopy. Those methods help doctors to refine the scope of involvement of the particular body part or, for example, to specify the extent of a tumor. Part four concentrates on the therapeutic applications of laser radiation in particular branches of medicine, including ophthalmology, dermatology, cardiology, urology, gynecology, otorhinolaryngology (ORL), neurology, dentistry, orthopaedic surgery and cancer therapy, as well as laser coatings of implants. The final chapter includes the safety precautions with which the staff working with laser instruments must be familiar.

With its distinguished editor and international team of contributors, this important book summarizes international achievements in the field of laser applications in medicine in the past 50 years. It provides a valuable contribution to laser medicine by outstanding experts in medicine and engineering.

- Describes the interaction of laser light with tissue
- Reviews every type of laser used in medicine: solid state, gas, dye and semiconductor
- Describes the use of lasers for diagnostics

From reader reviews:

Carrie Freeman:

The actual book Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials) will bring one to the new experience of reading a book. The author style to clarify the idea is very unique. If you try to find new book to read, this book very suitable to you. The book Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials) is much recommended to you to read. You can also get the e-book in the official web site, so you can more readily to read the book.

Bertha Buentello:

Reading a book for being new life style in this season; every people loves to study a book. When you learn a book you can get a great deal of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information onto it. The information that you will get depend on what forms of book that you have read. If you need to get information about your examine, you can read education books, but if you want to entertain yourself you can read a fiction books, this sort of us novel, comics, along with soon. The Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials) will give you a new experience in studying a book.

Tyron Lenahan:

Many people spending their time frame by playing outside together with friends, fun activity with family or just watching TV all day long. You can have new activity to pay your whole day by examining a book. Ugh, ya think reading a book will surely hard because you have to use the book everywhere? It fine you can have the e-book, taking everywhere you want in your Smartphone. Like Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials) which is obtaining the e-book version. So , try out this book? Let's view.

John Edmondson:

Some people said that they feel bored stiff when they reading a publication. They are directly felt the idea when they get a half portions of the book. You can choose the actual book Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials) to make your own reading is interesting. Your personal skill of reading skill is developing when you just like reading. Try to choose simple book to make you enjoy to see it and mingle the opinion about book and reading especially. It is to be first opinion for you to like to open up a book and go through it. Beside that the e-book Lasers for Medical Applications: Diagnostics, Therapy and Surgery (Woodhead Publishing Series in Electronic and Optical Materials) can to be your friend when you're truly feel alone and confuse using what must you're doing of the time.
