Plant Breeding for Abiotic Stress Tolerance

Plant Breeding for Abiotic Stress Tolerance

The rapid population growth and the increase in the per capita income, especially in the group of emerging countries referred to as BRIC countries (Brazil, Russia, India, China and South Africa) has created huge pressure for the expansion of the agricultural growing area and the crop yields to meet the rising demand. As a result, many areas that have been considered marginal for growing crops, due to their low fertility, drought, salinity, and many other abiotic stresses, have now been incorporated in the production system. Additionally, climate change has brought new challenges to agriculture to produce food, feed, fiber and biofuels. To cope with these new challenges, many plant breeding programs have reoriented their breeding scope to stress tolerance in the last years. The authors of this book have collected the most recent advances and discoveries applied to breeding for abiotic stresses in this book, starting with new physiological concepts and breeding methods, and moving on to discuss modern molecular biological approaches geared to the development of improved cultivars tolerant to most sorts of abiotic stress.

Written in an easy to understand style, this book is an excellent reference work for students, scientists and farmers interested in learning how to breed for abiotic stresses scenarios, presenting the state-of-the-art in plant stresses and allowing the reader to develop a greater understanding of the basic mechanisms of tolerance to abiotic stresses and how to breed for them.

From reader reviews:

Ruth Davis:

The book Plant Breeding for Abiotic Stress Tolerance give you a sense of feeling enjoy for your spare time. You should use to make your capable considerably more increase. Book can to become your best friend when you getting stress or having big problem along with your subject. If you can make looking at a book Plant Breeding for Abiotic Stress Tolerance to become your habit, you can get considerably more advantages, like add your own personal capable, increase your knowledge about a number of or all subjects. You can know everything if you like open up and read a publication Plant Breeding for Abiotic Stress Tolerance. Kinds of book are several. It means that, science guide or encyclopedia or some others. So , how do you think about this book?

Mary Russell:

Book is to be different for each and every grade. Book for children until finally adult are different content. As it is known to us that book is very important normally. The book Plant Breeding for Abiotic Stress Tolerance ended up being making you to know about other information and of course you can take more information. It doesn't matter what advantages for you. The publication Plant Breeding for Abiotic Stress Tolerance is not only giving you considerably more new information but also to be your friend when you truly feel bored. You can spend your own spend time to read your book. Try to make relationship while using book Plant Breeding for Abiotic Stress Tolerance. You never experience lose out for everything when you read some books.

Gary Farrell:

Exactly why? Because this Plant Breeding for Abiotic Stress Tolerance is an unordinary book that the inside of the reserve waiting for you to snap it but latter it will surprise you with the secret it inside. Reading this book alongside it was fantastic author who also write the book in such incredible way makes the content inside easier to understand, entertaining technique but still convey the meaning fully. So , it is good for you because of not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of advantages than the other book have such as help improving your talent and your critical thinking means. So , still want to delay having that book? If I had been you I will go to the reserve store hurriedly.

Lucy Fletcher:

Reading a guide make you to get more knowledge from it. You can take knowledge and information from the book. Book is composed or printed or created from each source in which filled update of news. On this modern era like at this point, many ways to get information are available for you. From media social including newspaper, magazines, science guide, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Are you hip to spend your spare time to spread out your book? Or just trying to find the Plant Breeding for Abiotic Stress Tolerance when you essential it?
