Loving a biker and his adult film star brother came at a terrible price. Taken by a rival gang, beaten beyond recognition, and sexually assaulted, Rachel Givens saw a chance to survive by claiming the identity of the other girl who was taken and killed. She spent months recovering from her physical injuries but still struggles with PTSD. Add her three-year-old autistic daughter to the equation, and Rachel (now Rae Simmons) has her hands more than full as she makes a new life for them in a quiet little town.

When her former loves walk into the restaurant where she works, it's clear that the Colson brothers have come for more than the plate lunch special. Once Rachel gladly submitted to their domination, but she hasn't been with a man since her ordeal. She has triggers and issues and a daughter whose needs come first. Cord and Cam don't care whether or not Hannah is theirs. As far as they're concerned, Hannah is Rachel's and Rachel is theirs – and they'll do whatever it takes to convince Rachel that they belong together.
