Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices: 3 (Philips Research Book Series (closed)) Peter van der (Ed.) Stok

Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices addresses a subject that is becoming more important over the years. On the one hand the arrival of home networks is imminent, and on the other hand we notice that chips integrate more and more functionality. The home network interconnects the Consumer Electronic (CE) devices in the home, and the individual CE-devices incorporate the chips to realize a ubiquitous streaming of video streams over this network. This book provides a comprehensive overview of the challenges that face us. The book shows that there are many similarities between traditional networking and networks in the chip. However, there are some different operational conditions that lead to original solutions. Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices focuses on the robustness aspects of the chosen technologies in the area of video streaming. Management of resources such as memory, bandwidth, CPU cycles, bus–cycles is an aspect that is prominent in many of the sections.

From reader reviews:

Jean Gadson:

Typically the book Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices: 3 (Philips Research Book Series (closed)) has a lot info on it. So when you read this book you can get a lot of profit. The book was written by the very famous author. Tom makes some research before write this book. This specific book very easy to read you may get the point easily after scanning this book.

Patricia Ackermann:

Are you kind of stressful person, only have 10 or even 15 minute in your moment to upgrading your mind talent or thinking skill perhaps analytical thinking? Then you have problem with the book as compared to can satisfy your short period of time to read it because this time you only find book that need more time to be go through. Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices: 3 (Philips Research Book Series (closed)) can be your answer since it can be read by anyone who have those short time problems.

Loretta Jones:

As we know that book is important thing to add our information for everything. By a book we can know everything you want. A book is a pair of written, printed, illustrated or blank sheet. Every year has been exactly added. This e-book Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices: 3 (Philips Research Book Series (closed)) was filled about science. Spend your spare time to add your knowledge about your research competence. Some people has distinct feel when they reading a book. If you know how big advantage of a book, you can sense enjoy to read a book. In the modern era like now, many ways to get book that you simply wanted.

Roberta Anglin:

E-book is one of source of information. We can add our understanding from it. Not only for students but native or citizen have to have book to know the up-date information of year to help year. As we know those publications have many advantages. Beside we all add our knowledge, may also bring us to around the world. Through the book Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices: 3 (Philips Research Book Series (closed)) we can acquire more advantage. Don't you to be creative people? Being creative person must prefer to read a book. Simply choose the best book that acceptable with your aim. Don't possibly be doubt to change your life with that book Dynamic and Robust Streaming in and between Connected Consumer-Electronic Devices: 3 (Philips Research Book Series (closed)). You can more pleasing than now.
